English/Language Arts			
Handwriting	Alphabet	Sight Words	Response to Literature
1a. I can write my first and last name 3 times.	2a. I can cut out pictures that begin with any letter A-Z. I can write the beginning sound next to the picture.	3a. I can pick 1 sight word and write a sentence using that word. I can draw a picture illustrating what I wrote.	4a. I can draw and label a picture of my favorite character in a story.
1b. I can write my first and last name and my 911 address.	2b. I can pick a letter and make a graphic organizer showing 4 things that begin with the letter. 	3b. I can use letter tiles to make 3 of my sight words. I can write 3 descriptive sentences, each using one of the sight words. *This counts as 3 activities*	4b. I can draw and label a picture of my favorite part of a story.
1c. I can write the alphabet in uppercase letters.	2c. I can put my alphabet tiles in order from A-Z and use this to help me write the alphabet.	3c. I can write a sentence about the snow using at least one sight word.	4c. I can draw a picture and make a prediction of what might happen next in a story.
1d. I can write the alphabet in lowercase letters.	2d. I can write a word that begins with letters: A-F or G-L or M-R or S-Z	3d. I can write a list of words that describe things we do when it snows.	4d. I can read for 20 minutes. *Add to Book-It list or write down title and author of book.*

Technology			
IXL	Starfall.com	Wegivebooks.org	ABCya.com
IXL is a math program. Write down what lesson your child worked on.	This website has a variety of educational resources. Starfall contains English language arts, reading, and math content.	This website has books you can read with your child at no cost. You may add these books to your Book It list.	This website has a variety of educational games your child may play.

*You may only pick 1 technology activity per day.

Math

Numbers	Shapes	Measurement and Weight	Addition and Subtraction
1a. I can write numbers 0-30.	2a. I can create a shape picture using a triangle, rectangle, circle, and square.	3a. I can find 3 objects in my house that I am heavier than. I can draw these 3 objects.	4a. I can write my own addition word problem. I can draw a picture to show how I solved the problem.
1b. I can make number flashcards 0-30 and review these with a parent.	2b. I can draw each 2d shape and circle the vertices (corners). I can write how many vertices each shape has.	3b. I can find 3 objects in my house that I am lighter than. I can draw these 3 objects.	4b. I can write my own subtraction word problem. I can draw a picture to show how I solved the problem.
1c. I can represent a number 5-10 using a word, a picture, and a numeral. I can do this for 3 numbers.	2c. I can pick a shape and find objects in my house that are the shape. I can draw or write the name of the object. (Example: A picture on my wall is a rectangle. My basketball is a sphere.)	3c. I can measure 3 different things in my house using non-standard measurement. I can record my findings. (Example: My sofa is 13 shoes long. My TV is 25 toy cars long).	4c. I can "shake and spill" to 5 or 10. I can record my findings.

**Each snow day your child needs to complete 3 activities from any of the content areas. They can only choose 1 technology activity. Please send all work the first day school starts back.
If work is not sent in, your child will be considered absent.**
