## 6<sup>th</sup> Grade Snow Day Activities

In the event that school is cancelled due to inclement weather, students will be responsible for completing work from home to excuse missed school day(s). A parent/guardian must sign and date each box that is completed. The form must be returned the first day that school resumes. If the required assignments are not completed at home on cancelled school days, students will be responsible for completing and submitting assignments within five days after returning to school, which must be done before/after school hours or at home. These assignments are required and will be graded. If work is not completed in the 5 day time period, the student will receive a zero and an unexcused absence for each assignment.

Complete **1 box per subject for each day** that we are out of school due to bad weather. This means 1 day out of school you must complete 1 box from Math, 1 box from ELA, 1 box from Science and 1 box from Social Studies. All 4 assignments should not exceed 2 hours of work. Assignments have been uploaded to google classrooms (to access links) and paper copies have been provided to students.

Math	Language Arts	Science	Social Studies
Complete two days on the <a href="#">Spiral Review</a> . Choose the days of the week and show your work on the back of the paper.	Build a snowman to look like a favorite character in a book.
